

Goodskills Career Builder

Buffalo • Niagara Falls • Jamestown

Connecting Businesses with Motivated and Qualified Job Candidates in Manufacturing

Goodskills Career Builder initiative provides participants with work readiness skills that employers have identified as important for success on the job in manufacturing. We are currently seeking manufacturing business partners in the Buffalo, Jamestown, and Niagara Falls area for placement and experiential learning opportunities.

Goodskills' participants complete our in-depth assessment process, receive sector specific job readiness training, and are pre-screened to match your company's needs. Upon graduation from the four-week training, all Goodskills participants have OSHA 10 certification, forklift experience, shop math course completion, and cybersecurity certification.

Become an Experiential Learning Partner

As an experiential learning partner, business partners receive:

- 27 hours of free labor performance by qualified individuals with an onsite field trainer provided to offer supervision to individuals while they're on the work floor
- Individuals work performance evaluated daily and held to a standard that if not met will result in corrective actions to improve performance
- The opportunity to observe individuals first hand before offering employment

Become a Hiring Partner

As a hiring partner, business partners receive:

- Participate in the exclusive Goodskills Interview day to have first pick at individuals that are pre-screened and job-ready to fill open positions, reducing the need to utilize staffing agencies or recruiters
- Transportation assistance for employees provided to individuals that are hired up to their first paycheck
- Up to three years of job support for hired graduates from an expert Goodskills Career Coach

To have a member of the Goodskills Career Builder Team contact your business to learn more about becoming an experiential learning site or hiring partner, you can fill out the form online at:
